She's Back!

Melissa is back in town from Colorado! You may wonder why she traveled over 1600 miles, and it is to prepare the store for sale. She is making sure everything is in order and talking with prospective new owners. Her goal is to make sure that the new owner has as much passion for the store as she does. Watch for additional announcements as things develop.

Yarn News

Brown Sheep Mystery

It's no mystery, we got in almost 500 skeins of Brown Sheep last week, and anticipate more coming soon. We even got some of the rarest of the rare - BLACK in both worsted and bulky. We asked for 100 of each in black, but naturally only got a portion of that and the rest is on back order. Come in soon before both the black and the rest of the colors disappear (at least until the back orders are filled!)

Encore Rainbow of Colors Returns

We now have sweater (or afghan) quantity for over 60 colors of the 228 colors available. Our suppliers are working overtime to get us back up to full "rainbow" mode again. For sweaters, afghans, scarves, and just about any project you can think of, this yarn is unbeatable and does it all. It is machine washable too so it is great for kids.

Berroco Ultra Alpaca

This is a new yarn to the store with great pattern support. We unpacked it on Tuesday and were struck by the beautiful colors. It

has fantastic yardage (215 yards) and is a 50% wool 50% alpaca blend. Since it is reasonable in price, you can afford to do a large project with it.

New Sock Yarn! Misty Mountain Farms Jubilee

Knit three socks instead of two! Two one hundred gram skeins will make THREE socks. This is a great idea, since my washing machine and dryer eat at least one sock a month. It is a super-wash merino and feels fantastic on your feet. The color selection is gorgeous and is sure to please both the eye and foot.

Pearl Cottons

Check out the multiple color crochet threads that are a joy to use. This is a product that is exclusive for crocheter's, so come and check out the selection.

Hook and Needle News

Some of you may know that Melissa is the "gadget queen" and this has not changed. Since her return she has been busy filling the store with your favorite knitting and crocheting "tools."

Addi Turbos

“Turbocharge” your knitting, come and check out the expanded selection of Addi Turbo needles. We have almost all sizes in stock, even the 60 inch. When I first knitted with circulars, I thought that it was all hype, but found I really did knit faster with Addi’s. You get very used to the “click click” of the metal.

Denise Pink

Interchangeable needles are now available in pink. The cables and case are in pink, but otherwise identical to the original blue set. The exception is that \$5 from the sale of each set goes to support the fight against breast cancer. If you ever needed a reason to buy these needles, this is a great and noble cause.

ChaioGoo

These bamboo needles are reasonably priced. We have double points, some circulars, and crochet hooks all in stock. Wood really does feel better and does not conduct those cold winter nights into your fingers.

Brittany

We just got shipment of hooks and knitting needles, so we now have all of their sizes in stock. This is the “classic” wood knitting needles and crochet hooks, they have a great feel and really help you work faster with less fatigue due to their light weight.

Classes

Since winter solstice, the days have been getting longer, so now you must have time for that class you have been meaning to take. Call today, most classes fill quickly. 703-263-9744.

Beginner Knitting- Level I

Three sessions, two hours each week

Group 1: Sundays from 1 to 3 pm starting January 7, 2007
